

How to Prevent Wind Damage to Your Home

High winds can be a dangerous, and costly, instance of extreme weather. Consider the damage incurred by the severe spring wind storm that hit southern Ontario in May 2018, causing over \$380 million in property damage.¹

Though none of us can control the weather, there are some actions that home owners can take to help minimize their potential losses in the event of a wind storm.

It's important to be aware of the risk level for high winds in your area, as well as of your home's potential vulnerabilities to wind damage.
